Rashid Mehmood

Senior Full Stack Software Engineer

Dubai, UAE · +971508343662 · rashidpadda145@gmail.com
linkedin.com/in/rashid-mehmood-522411190 · github.com/rashidpadda

Senior Full Stack Software Engineer with 7+ years of experience designing and building scalable enterprise applications, high-volume data systems, and integrated platforms for global markets. Strong expertise in Node.js, NestJS, React.js, Next.js, React Native, and TypeScript, with hands-on experience in microservices, RESTful APIs, API gateways, event-driven systems, and real-time processing. Experienced in Web3, DeFi, NFT platforms, and smart contract integrations, plus AI-assisted recruitment products and IT infrastructure. Currently remote with Ibanera, a US digital bank. Comfortable working with distributed, cross-functional, and international teams in Agile/Scrum environments.

SKILLS

Backend & architecture: Node.js, NestJS, Express.js, .NET, REST APIs, microservices, API gateway, Redis, RabbitMQ, MongoDB, PostgreSQL, SQL Server, MySQL

Frontend: React.js, Next.js, React Native, TypeScript, JavaScript, Redux, Tailwind CSS, Material-UI, Web3.js, WebSockets, SEO, SSR

Blockchain & Web3: Smart contracts, Ethereum, wallet integration, NFT marketplaces, DeFi staking, lending, and trading

Integrations: Jumio, Apple Pay, Google Pay, Stripe, SignalR, PandaDoc, Docker, GitHub Actions, CI/CD

AI: Recruitment products, candidate screening, interview scheduling, product integrations

IT infrastructure: Network administration, Grandstream IP PBX, FTP, email and domain setup, printers and scanners

Practices: Agile/Scrum, system design, RBAC, OAuth2, SSO, code reviews, performance optimization

EXPERIENCE

Senior Full Stack Software Engineer — Ibanera

United States · Remote | 02/2026 – Present

Full-stack engineering for Ibanera, a US digital bank covering cards, payments, accounts, and crypto.

- Built the Next.js customer portal for accounts, cards, crypto and stablecoin wallets, transfers, approvals, and onboarding, with Redux and SignalR.
- Developed the Peptiva checkout widget: email and phone verification, shipping, card payment, Apple Pay, and Google Pay.
- Shipped the QuickBuy portal in React and Vite, and its .NET API, for crypto purchase, sign-in, multi-currency validation, and order status.
- Integrated Jumio across the customer portal, Peptiva, and QuickBuy, including status checks and SignalR updates through manual review.
- Extended the React admin panel for customer review, approvals, and frozen transactions, and maintained the SQL Server procedures for verification, card lifecycle, and QuickBuy sign-in.

Senior Full Stack Software Developer — SoftBuilders Software Design LLC

Business Bay, Dubai, UAE | 01/2024 – Present

Web3 staking and rewards platform built with React.js, NestJS, and MongoDB, covering decentralized licensing, machine connectivity, and high-volume user activity.

- Built the React.js and NestJS platform and admin dashboard for decentralized staking, rewards, licence management, and machine connectivity.
- Designed the NestJS services, REST APIs, and API gateway for routing, authentication, authorization, and rate limiting across staking, rewards, and licensing.
- Added Redis, RabbitMQ, webhooks, and batch processing for high-volume transactions, plus RBAC dashboards with multi-level permissions.
- Integrated PandaDoc so onboarding includes digital contract signing.
- Administered internal IT: shared network resources, a Grandstream IP PBX, FTP, email and domain accounts, and shared printers and scanners.

Full Stack Software Developer — Aqary International Group

Abu Dhabi, UAE | 12/2023 – 01/2024

Enterprise proptech platform for property sales, rentals, and exchanges across 10+ international markets.

- Built the React Native app end to end, and the Next.js frontend with SSR, SEO, dynamic routing, and advanced search.
- Designed the Node.js APIs for listings, users, search, and transactions, shared by web and mobile.
- Cut page load times by 40% and improved rendering by 2x. Engagement rose 25%, conversion 15%, and bounce fell 18%.

Full Stack Software Developer — Big Immersive

Lahore, Pakistan | 02/2021 – 2023

NFT marketplace and Web3 dashboard managing 10,000+ users and 50,000+ blockchain transactions per month.

- Built browsing, trading, and wallet features in the React Native app for the Virtua NFT marketplace.
- Integrated Ethereum smart contracts with Node.js and Web3.js, and added single sign-on across React and Node.js. Transaction volume rose 40% and failures fell 30%.
- Integrated Stripe payments, cutting payment errors by 25% and raising successful transactions by 35%.

Software Developer — Intagleo Systems

Lahore, Pakistan | 04/2019 – 2021

AI-driven recruitment product that automated candidate screening and interview scheduling.

- Built the React and Node.js product for AI-assisted candidate screening, interview scheduling, and candidate workflows, with Redux for application state.
- Implemented real-time chat and notifications with WebSockets and SignalR, reducing response time by 60%.

SELECTED WORK

Ibanera Customer Portal

SignalR, Jumio, Next.js, TypeScript, Redux

Customer portal kept in sync with account, card, wallet, and verification services.

Peptiva Checkout Widget

SignalR, Jumio, Apple Pay, Google Pay, Next.js

Embeddable checkout widget and widget API for card and wallet payments.

QuickBuy Portal

.NET, SignalR, Jumio, React, Vite

Crypto purchase widget and .NET API for validation, identity checks, and live order status.

Admin Panel & Platform Database

SQL Server, Jumio, React, Redux, AG Grid

SQL Server procedures and admin tools for customer review, cards, and Jumio verification.

Homnifi · homnifi.com

NestJS, MongoDB, Redis, RabbitMQ, React.js

Web3 and DeFi platform: NestJS services, an API gateway, staking, rewards, and licensing.

AI Farm · app.aifarm.network

NestJS, PostgreSQL, Docker, smart contracts

Wallet, staking, referral, and resale workflows through NestJS microservices.

Aqary Dashboard · aqaryaid.com

Node.js, Next.js, SSR, SEO

Node.js listing APIs shared by the Next.js site and the mobile app.

Virtua Marketplace · marketplace.virtua.com

Node.js, Web3.js, Stripe, React.js

NFT trading with Ethereum smart contracts on a Node.js backend and Stripe checkout.

OFish — CRM Admin & Accounts Portal

Node.js, React Native, React.js, IoT

Node.js CRM for users, companies, and IoT device registration, plus a React Native app.

IntVue · intvue.com

Node.js, SignalR, WebSockets, React.js

Node.js APIs and React client for AI-assisted screening, booking, and real-time chat.

EDUCATION

Bachelor of Computer Science — University of Narowal

Narowal, Pakistan | 03/2015 – 09/2019
